(parentetical information is for clarification purposes only. Not to be included in course name.)								
*# Currently DTC and ALC students are separated and designated by course <i>section</i> within the same course. The proposed changes will separate and designate ALC & DTC by <i>course</i> . This will hopefully make scheduling and NCAA approval process easier.								
^ Currently 12th grade ALC students take Consumer Math. In the future higher functioning ALC students will take Foundations in Advanced Algebra and lower functioning ALC students will continue taking Consumer Math. This will hopefully make scheduling and NCAA approval process easier.								
MATH: All of proposed changes are designed to help satisfy NCAA requirements, differentiate between ALC and DTC/Regents students, and to accommodate alternative grading plans as per IEPs.

 New Courses Course Name Changes Request for 2019-20

Dept.	Grade	Level	Original Name*	New Name/New Course	Rationale	NCAA	Chair/Lead	CDC Approved
<p>SCIENCE: The present course names for Chemistry are confusing and creating problems for our students in the college application process. The current name looks like the student is enrolled in a combined Chemistry/Physics course. This is not the case. We are reverting to the traditional names of the course to eliminate the problems and confusion.</p>
